TOKOHAJI Indonesia

Application Engineer
March 2020 - December 2022 (2 years 10 months)
Greater Jakarta Area, Indonesia

Designed, developed, and maintained the TOKOHAJI application, encompassing Android and iOS platforms with Laravel serving as the backend.

Technologies Used:

Android (Java/Kotlin): Utilized Volley, Retrofit, Butter Knife, View Binding, SQLite, Glide, Room, etc., to ensure robust functionality and performance.
iOS (Swift): Implemented using Storyboard, Alamofire, and other essential tools to deliver a seamless user experience on Apple devices.

Achievements:

Successfully launched and maintained TOKOHAJI on Google Play and the Apple App Store.

Optimized user experience through efficient backend operations and intuitive frontend designs.

Facilitated seamless integration between mobile applications and Laravel backend for streamlined data management and real-time updates.

Explore TOKOHAJI on:
